Wedding Offer
New Babies!
Poland
New Dentists

New babies born!

Great news, two of our dentists have given birth to new babies. Baby Sofia was born in January to Dr Marta Deptula and Dr Ahssan Sarvestani both dentists here at the practice. She is absolutely gorgeous and has been in to visit us. Baby James was born in February to Dr Natasha Dewani. We are still waiting for a visit from him! Both dentists are due back at the beginning of July.

New dentists

We would like to introduce our 2 new dentists, Dr Jary Geratowicz DDS Poland and Dr Shailesh Sharma BDS London husband of Dr Gita Sharma who has been a dentist here for over 6 years! Both dentists have extensive dentistry experience and we are very pleased that they have joined our team. Kat Krol Shaffie is currently on sabbatical furthering her Implant knowledge by completing her diploma, we wish her the best of luck and hope to see her back with us very soon.

WEDDING DAY WHITENING OFFER

Getting married soon? Achieve a whiter brighter smile for your big day. Tooth whitening can restore stained or yellow teeth which have discoloured with time or can give that extra sparkle to your photos.

Using the latest products we can help you achieve a brilliant whiter smile.

For only £399, 2 people from the Bridal party can achieve the smile they have always wanted. This might include the Bride & Groom to be or the Bride to be and the Mother of the bride, or any combination. Talk to your dentist or speak to our friendly reception team.

DENTAL IMPLANTS

Anyone can lose a tooth. It often happens in seconds, playing sports and a tooth is gone, just like that. A shock but no great drama any more. Implants resolve the small problem naturally and invisibly. The dentist inserts the small high tech root at the position where the natural tooth was in the jaw. This usually does not take any longer than any other routine treatment by your dentist. A temporary restoration closes the gap until the implant is healed. Then the final tooth crown is fixed in place permanently. With the new root it is fixed firmly in the jaw and feels identical to your natural teeth.

Following a very successful Implant open evening in February at the Marriott hotel, where a guest speaker gave an overview of the Implant process and there was the opportunity to ask our surgeons questions. we plan to run another event in June. Please see reception for further information.

THE DENTAL CLINIC @ SPA MED IN POLAND

The dental practice Bexleyheath would like to introduce to its patients our new clinic in Poland. A modern practice with all of the latest technology to provide our patients with all of the best techniques for Cosmetic dentistry including implants. Dental holidays are becoming ever popular, providing dental procedures at more affordable prices, typically 40% lower than in the UK.

Our offer is different to most others in that we actually own the clinic. All consultations are done here in the UK and after care can be done here if needed.

The Clinic incorporates a small hotel Spa & restaurant. Therefore our unique business is situated in one building. Most companies who offer treatment abroad, merely have some kind of agreement with a clinic and a selection of hotels to offer you. >>

Hygienist / Therapist Andrea Powell

We would like to offer our thanks to Andrea who has made an outstanding contribution to our practice since she joined us just over a year ago. Andrea offers a complete and thorough deep clean and polish. She is specifically trained to deal with gum disease and will give oral health advice.

As a therapist it also enables Andrea to be able to offer certain treatments to children and vulnerable adults for example fillings. She is specifically trained to provide treatment to these types of patients. We have had numerous compliments regarding Andrea from our patients "the most gentle hygienist I have ever been to." "She didn't judge me she simply cleaned and advised."

For more information on our Hygienist service please speak to your dentist.

WHAT'S NEW AT THE PRACTICE?

THE DENTAL CLINIC (CONTD.)

<< When we quote you a price for treatment this will include a free stay at our Spa with all food, the only extra for the patient is the Flight cost.

We can arrange your flights no problem and we even throw in a free transfer to and from our Hotel in a luxury car. To find out more about this unique offer and

to achieve the smile you have always wanted, please speak to your dentist or see a member of our friendly reception team.

THE DENTAL PRACTICE IS GROWING!

Planning permission has been granted for a large extension to our building at the back. It will be a centre of excellence for specialist dental implants and restorative dentistry.

The building will be ultra modern in design incorporating a lot of glass. The latest technology will be used to equip the surgeries and we will bring in a new range of services to offer our patients Orthodontics, Endodontics and Periodontists. This will ensure that our patients that need specialist care will be able to be seen in their local area instead of being referred elsewhere.

We are currently at Tender stage with our build and hope to be able to start the actual work around June time. We are very excited about our new project and can't wait to get started!

THE INMAN ALIGNER

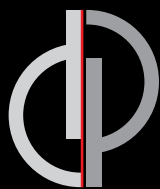

Would you like to straighten your teeth in a matter of weeks? Well now its possible thanks to the Inman Aligner.

Here at Bexleyheath Dental practice we have recently been able to increase the services we can offer our patients by becoming an Inman Aligner practitioner.

Dr Hussein Shaffie our principal dentist is now a Certified Inman Aligner Provider. In a matter of weeks teeth can be re aligned into position.

Please see our website for further information and a video clip. If you would like further information or a free consultation please see a member of our reception team.
